

QUALITY POLICY

CHIEF EXECUTIVE'S STATEMENT

The Quality Policy, which is an integral and coherent part of the Company's policy and strategy, is aimed to supply products and services in compliance with the expected and desired quality level, for meeting the Customer's satisfaction, in compliance with the involved parties' needs and expectations.

The undersigned, in his function of Chief Executive Officer, is engaged in the development, implementation and review of the Company Quality Management System (QMS) and in the constant improvement of its effectiveness in compliance with the defined Quality Policy.

In order to improve the implementation of the QMS effectiveness and efficiency, the main processes affecting the pertaining products/services quality have been identified among the Company activities and their interactions and management have been defined.

This Quality Manual includes all relevant information, as detailed as needed, for communication, implementation and fulfillment of the basic principles for meeting the above mentioned engagement.

The detailed extent is reported in the Procedures indicated in the Manual itself.

The Manual, besides defining the Quality Policy, identifying the processes and describing the QMS, also indicates the ANN internal and onsite organization structure, the QMS applicable field and the methods adopted for establishing and evaluating the quality goals.

This Manual does not include the specific requirements concerning the Systems for Environmental Management, Working Environment Health and Safety Management, Financial Management or Risk Assessment Management, which are detailed by specific Company Manuals. Anyway, as this Manual is in compliance with ISO 9001:2008 in agreement with ISO 14001:2004, it is possible to integrate the QMS requirements with the requirements concerning the above management systems, in particular the Environmental Management System.

Genova, 17th September 2009

The Chief Executive Officer

Roberto Adinolfi
